No less a person than ex-Governor Savage of Nebraska, who is one of the owners of a large tract of land near Magdalena bay, says the Japanese sought to purchase a tract there for the purpose of establishing a coal station. There seems no question but that Japan is working secretly for a foothold on the western hemisphere and that the wily Jap will need watching by the authorities at Washington.

France and Great Britain now propose to ask tariff concessions from the United States similar with those proposed in the reciprocity agreement with Canada. Such, however, will likely be turned down by the authorities at Washington. Under the reciprocity agreement, the United States makes tariff concessions only as Canada gives favors in return—a special agreement of give and take. Therefore it is held foreign nations cannot rightfully claim like treatment by virtue of trade treaties with the United States.

The governor signed the judicial apportionment bill Friday and it became effective at once. Mr. Hobart, a lawyer of Scotts Bluffs, has been appointed judge of the new district created out of the northwest part of Judge Grimes' former district. The district presided over by Judge Grimes is now composed of the counties of Dawson, Lincoln, Logan, McPherson, Keith, Deuel, Cheyenne and Kimball. Perkins, Garden, Banner, and Scotts Bluffs have been taken from Judge Grimes district and Dawson county added.

The Business Outlook.

Reliable Wall street men seem to incline to the view that business for the next two years will run along conservative lines and that not until the spring of 1913 will anything like a sharp revival or a boom become apparent. By then the presidential election will have come and gone and an administration been inducted again into office at Washington. State legislatures will have about come to another close and the business of the country will have had time to recover from politics. Then will begin, according to these prognosticators, another period of great commercial and industrial expansion, railroads reaching out with new extensions and other forms of business making big advances.

While there is much in present conditions and the outlook to justify this view, yet the impression should not get out that Wall street is predicting anything akin to a depression for the two years intervening. It admits that business will not drop into a comatose condition, but will continue very fair. The difference will appear in the withdrawal of some of the extensive forward movements of capital and the disposition to keep everything on a sure level. That ought to have some advantages. It will give investments time to settle down to a firmer basis and, perhaps, accomplish in that way precisely what the country most needs.

It is well enough to put the brakes on the swift pace we pursue now and then, especially when the country is as prosperous as it is today, confronted, moreover, with a good crop outlook. Anyone who has kept account of what the railroads and other industrial concerns have been doing knows that they are not preparing to shut down, but are laying big plans to proceed. Only a few days ago came the report from New York that four of the great systems were about to contest with one another for greater advantage in the west, and the order of the Harriman lines to begin this spring to expend \$75,000,000 on road improvement is proof enough that progress is not to be interrupted.

All this, however, does not belie the prediction of a generally conservative tone of business for some little time to come. If this is being planned by concerted action it ought to encourage rather than discourage confidence, and have the effect of warding off any attempt at artificial disturbance.—Bee.

TWO DAYS ONLY.

Remarkable Success of these Talented Physicians in the Treatment of Chronic Diseases.

OFFER THEIR SERVICES FREE OF CHARGE.

The Associated Doctors, licensed by the state of Nebraska for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are considered by many former patients among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle. Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated, chronic diseases, that have baffled the skill of the family physician, should not fail to call. According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two-ounce bottle of your urine for chemical analysis and microscopic examination. Deafness often has been cured in sixty days. No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Homeopathy Principles

Similia, Similibus, Curantur.

A like remedy will cure a like disease—as a remedy which has the same symptoms, or produces the same in the well, will cure those in the sick, and with nature's help will cure quicker than any other, and with less expense to the human economy. This system of medicine has at its command anything in the realm of cure, such as electricity in any form, the Vibrator, Massage, Hydrotherapies. Therefore the correctness of choosing this line of treatment, rather than whims with a single borrowed idea. For out of town patients and all those interested: rooms furnished when desired, for confinement, medical and the necessary surgical cases. Trained nurses in attendance.
